mukulbhatnagar1@gmail.com

Experienced Software Tester with strong skills in automation and manual testing. Proven track record of analyzing business requirements, devising test strategies, and conducting thorough testing to detect software bugs. Skilled in using automation testing tools and building frameworks to improve software quality.

PROFILE

- 5+ years of experience in Software Testing.
- Skilled in automating tests for Web, Mobile, and APIs.
- Domain expertise in Banking, CRM, E-commerce, Logistics, and Aviation.
- Proficient in analyzing test results and reporting via bug tracking systems.
- Experienced in Agile development methodologies.
- Well-versed in Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC).
- Capable of conducting various types of testing including Integration, Performance, GUI, Regression, Smoke, Sanity, Functional, and API testing.
- Involved in project lifecycle from inception to closure.
- Quick learner, team player, and maintains a positive attitude.
- Able to comprehend application business requirements effectively.
- Flexible and adept at adjusting to new work environments.
- Experienced in onsite client coordination.

PROFESSIONAL EXPERIENCE

Nomo Bank

<<2023 - 2024>>

- Utilized Appium to automate testing for a mobile fintech application.
- Integrated test IDs into a development project to improve test coverage and tracking.
- Set up pipeline configurations across different environments to ensure smooth integration.
- Demonstrated expertise by delivering Proof of Concepts and engaging demos.
- Automated APIs using GraphQL and Axios for more efficient and reliable backend testing.

DevStringX Technologies

<<2021 - 2023>>

- Proficiently utilized a range of automation tools including Selenium, Appium, Rest assured, and Jmeter for optimizing testing processes.
- Actively engaged in Scrum events, including sprint planning, estimation, daily stand-up, refinement, grooming, demo, and retrospective meetings, fostering agile project management practices.
- Collaborated closely with software developers and configuration experts to meticulously assess defects, discern root causes, and evaluate their severity and impact on project outcomes.
- Demonstrated expertise in bug identification and reporting, contributing to streamlined defect resolution processes.

Hindustan Aeronautics Limited

<<2020 - 2021>>

- Acquired practical proficiency in utilizing the LDRA tool.
- Conducted meticulous unit testing, including comprehensive documentation and thorough test case validation, for Light Combat Helicopters.

Freelance QA Tester

<<2018 - 2019>>

- Offered freelance automation testing services to clients across diverse industries.
- Crafted custom bots, leveraging proxies, reCAPTCHA, and other cutting-edge solutions.
- Designed and implemented test automation scripts using industry-recognized tools, operating seamlessly on multiple cloud platforms.
- Delivered comprehensive training sessions and workshops on automation testing to clients, empowering them to enhance their automation proficiency and capabilities.

TECHNICAL SKILLS

Scripting & Query Languages	: SQL, Postgre
Development Languages	: Java, TypeScript, C#
Frameworks	: Maven, Cucumber, Karate
Database	: SQL/MySQL
Platforms & OS	: Windows, Ubuntu, macOS
Versioning Tools	: Bitbucket, GitHub, Gitlab
CI Tools	: Jenkins
Automation Tools	: Selenium, Appium, WebDriverIO, Cypress, Rest Assured
Automation Frameworks	: Hybrid Framework (Keyword Driven/Data Driven)
Automation Reporting Tool	: TestNG, Extent Report, Allure Report
Cloud Platforms	: Browserstack, Sauce Labs
API Tool	: Postman, Swagger
Test Management Tool	: JIRA, MSNAGILE, TestRail

PROJECT DETAIL

1. Metafora

Metafora, previously "CarrierDirect", is a business consulting and software development company that exclusively services the Transportation, Logistics and Supply Chain space.

Tools & Technology

Selenium WebDriver, Rest Assured, JMeter, Java

Roles & Responsibility

- Automation of Website and API's.
- Performing Manual Testing and handling Merge Requests.
- Performing various types of testing Like GUI Testing, Integration Testing, User Acceptance Testing, Cross Browser Testing, End to End Testing, Performance Testing.
- Managing code using BitBucket.

2. [SAP](#)

SAP SE is a German multinational software company, world's leading enterprise resource planning software vendor, that develops enterprise software to manage business operations and customer relations.

Tools & Technology

Selenium WebDriver, Rest Assured, Java

Roles & Responsibility

- Automation of Website and API's.
- Uploading Weekly Execution results in XRAY and maintaining CI/CD.
- Performing various types of testing Like GUI Testing, Integration Testing, End to End Testing.
- Managing code using GitLab.

3. [Veoci](#)

Veoci leads the way in crisis management, emergency response, and business continuity software - configured to how your teams and organization work.

Tools & Technology

Appium, Java

Roles & Responsibility

- Automation of Mobile app.
- Performing various types of testing Like GUI Testing, Integration Testing, Regression Testing, End to End Testing.
- Managing code using Git.

ACHIEVEMENTS

- Shining Star Award 2021
- Chess Event Winner 2022
- Hackathon Winner 2023

EDUCATION DETAILS

- BTech in Electronics and Communication Engineering from Bharati Vidyapeeth's College Of Engineering, New Delhi [2016 - 2019]
- Diploma in Computer Engineering from Ambedkar Institute of Technology, New Delhi [2013 - 2016]
- 10th from RSBV Kalyanvas [2013]

PERSONAL INFORMATION

- Full Name : Mukul Bhatnagar
- Marital Status : Unmarried
- Languages Known : Hindi, English
