

**MUKUL BHATNAGAR**

+919958413035

[mukulbhatnagar1@gmail.com](mailto:mukulbhatnagar1@gmail.com)

Experienced Software Tester proficient in Appium, Selenium, and LDRA testing tools, with expertise in manual testing. Skilled in unit testing, documentation, and validating test cases for Light Combat Helicopter. Proven track record of analyzing business requirements, devising test strategies, and conducting thorough testing to detect software bugs. Proficient in developing and maintaining automation frameworks to enhance software quality.

**PROFILE**

- 5+ years of experience in Software Testing.
- Good understanding of Web, Mobile, and API automation.
- Experience in analyzing test results and communicating via bug tracking systems.
- Working experience in the Agile development process.
- Good Knowledge of Software Development Life Cycle (SDLC) and STLC.
- Good in Performing various types of testing like Integration Testing, Performance Testing, GUI Testing, Regression Testing, Functionality Testing, and API Testing.
- Complete involvement in project life cycle from '0' phase to project closure.
- Quick learner, Cheerful and Team Player.
- Ability to understand application business requirements.
- Flexible and adapt quickly to new working environments.
- Onsite Client co-ordination.

**PROFESSIONAL EXPERIENCE****Nomo Bank**

&lt;&lt;2023-2024&gt;&gt;

- Worked on Appium using TypeScript for mobile application testing.
- Implemented the integration of test IDs in a development project, enhancing test coverage and traceability.
- Monitored pipeline execution across all environments to ensure seamless integration.
- Demonstrated expertise by delivering Proof of Concepts and engaging demos.
- Automated APIs using GraphQL and Axios, contributing to efficient and reliable backend testing.

**DevStringX Technologies**

&lt;&lt;2021 - 2023&gt;&gt;

- Proficiently utilized a range of automation tools including Selenium, Appium, Rest assured, and Jmeter for optimizing testing processes.
- Actively engaged in Scrum events, including sprint planning, estimation, daily stand-up, refinement, grooming, demo, and retrospective meetings, fostering agile project management practices.
- Collaborated closely with software developers and configuration experts to meticulously assess defects, discern root causes, and evaluate their severity and impact on project outcomes.
- Demonstrated expertise in bug identification and reporting, contributing to streamlined defect resolution processes.

**Hindustan Aeronautics Limited**

&lt;&lt;2020 - 2021&gt;&gt;

- Acquired practical proficiency in utilizing the LDRA tool.
- Conducted meticulous unit testing, including comprehensive documentation and thorough test case validation, for Light Combat Helicopters.

**Freelance QA Tester**

&lt;&lt;2018 - 2019&gt;&gt;

- Offered freelance automation testing services to clients across diverse industries.
- Crafted custom bots, leveraging proxies, reCAPTCHA, and other cutting-edge solutions.
- Designed and implemented test automation scripts using industry-recognized tools, operating seamlessly on multiple cloud platforms.
- Delivered comprehensive training sessions and workshops on automation testing to clients, empowering them to enhance their automation proficiency and capabilities.

**TECHNICAL SKILLS**

---

<b>Scripting &amp; Query Languages</b>	: SQL, Postgre
<b>Development Languages</b>	: Java, TypeScript, C#
<b>Frameworks</b>	: Maven, Cucumber, Karate, Gradle
<b>Database</b>	: SQL/MySql
<b>Platforms &amp; OS</b>	: Windows, Ubuntu, macOS
<b>Versioning Tools</b>	: Bitbucket, GitHub, Gitlab
<b>CI Tools</b>	: Jenkins
<b>Automation Tools</b>	: Selenium, Appium, WebdriverIO, Cypress, Rest Assured
<b>Automation Frameworks</b>	: Hybrid Framework (Keyword Driven/Data Driven)
<b>Automation Reporting Tool</b>	: TestNG, Extent Report, Allure Report
<b>Cloud Platforms</b>	: Browserstack, Sauce Labs
<b>API Tool</b>	: Postman, Swagger
<b>Test Management Tool</b>	: JIRA, MSNAGILE, TestRail

**PROJECT DETAIL**

---

**1. Metafora**

Metafora, previously "CarrierDirect", is a business consulting and software development company that exclusively services the Transportation, Logistics and Supply Chain space.

**Tools & Technology**

Selenium WebDriver, Rest Assured, JMeter, Java

**Roles & Responsibility**

- Automation of Website and API's.
- Performing Manual Testing and handling Merge Requests.
- Performing various types of testing Like GUI Testing, Integration Testing, User Acceptance Testing, Cross Browser Testing, End to End Testing, Performance Testing.
- Managing code using BitBucket.

## 2. [SAP](#)

SAP SE is a German multinational software company, world's leading enterprise resource planning software vendor, that develops enterprise software to manage business operations and customer relations.

### Tools & Technology

Selenium WebDriver, Rest Assured, Java

### Roles & Responsibility

- Automation of Website and API's.
- Uploading Weekly Execution results in XRAY and maintaining CI/CD.
- Performing various types of testing Like GUI Testing, Integration Testing, End to End Testing.
- Managing code using GitLab.

## 3. [Veoci](#)

Veoci leads the way in crisis management, emergency response, and business continuity software - configured to how your teams and organization work.

### Tools & Technology

Appium, Java

### Roles & Responsibility

- Automation of Mobile app.
- Performing various types of testing Like GUI Testing, Integration Testing, Regression Testing, End to End Testing.
- Managing code using Git.

## ACHIEVEMENTS

---

- Shining Star Award 2021
- Chess Event Winner 2022
- Hackathon Winner 2023

## EDUCATION DETAILS

---

- BTech in Electronics and Communication Engineering from Bharati Vidyapeeth's College Of Engineering, New Delhi [2016 - 2019]
- Diploma in Computer Engineering from Ambedkar Institute of Technology, New Delhi [2013 - 2016]
- 10th from RSBV Kalyanvas [2013]

## PERSONAL INFORMATION

---

- Full Name : Mukul Bhatnagar
- Marital Status : Unmarried
- Languages Known : Hindi, English
